# “Eye-Catcher”

What's new from the Kinderland world of ideas

# Inclusive play

Communicating  
together

Light:  
seeing and  
sensing

Swinging

Inclusive slides with  
easy entrance /access

Seesawing  
together

Since its earliest years, Kinderland Emsland Spielgeräte has been involved in the development of Inclusive play areas, while building and improving them at the same time. Offering play areas with equal opportunities for all users are obvious to us and are being created on a daily basis. Designing and creating new items, which can be used by all children, offer a challenge which we take on gladly. If you have any questions or wishes to this subject, we are more than willing to prove ourselves as the experienced and dedicated partner that we are.

Sensing movement together

Sound game

# Toddlers

Between the ages of 0 and 6 years, the world presents itself to children. All social, physiological and spoken phenomena, given to us by Mother Nature, are being experienced, tried and tested. In short: they're playing! To support and complete this sensation, we offer a range of play equipment that stimulates, challenges, supports and educates its users.

For more information you can also look at our flyer "Toddlers", which can be found on our website [www.emsland-spielgeraete.de](http://www.emsland-spielgeraete.de) under chapter [Downloads](#).

# Karl's Adventure Villages, Koserow

## Outdoor, indoor and water play areas

Playable Dig site

Playable storage unit

Construction water play

Karl's Adventure Villages are known throughout the country in the meantime: delicious strawberries, lots of things to see and buy and great play offerings. We participated once again in creating his newest Village in Koserow on the Island of Usedom: a large outdoor unit looking with a dig site theme, a new form of water play area and a large barn with an Indoor play unit.

# Swinging

Free swinger  
Abtsteinach

1-2-3 Swing  
Potsdam

Portal  
swing

Swing seat  
Large & Small

High above everything and all, that short moment experiencing the feeling of zerogravity, the excitement of the wind in your face and hair: swinging. A classic in every playground. We offer a wide range of swings, from standard to units that offer just that bit of extra fun.

Swinging alone, or together with one, two, three or more, mama eye to eye with her toddler, or back to back with backrest so that it also can be used as Inclusive unit.

Couple  
seat

Mikado forest

Musical tree

Rope game

Youth shelter

Steel umbrella

Walking drum

Exercising is fun. Exercising together even more. To achieve this, the Dietmar Hopp Foundation funds 19 exercise and meeting areas in the RheinNeckar region.

These areas can be used year round, free of charge by people of all ages, with or without limitations. We cooperated in almost all 19 projects of which we show a view examples of Abtsteinach and Schwetzingen below. More information to these fantastic projects can be found on [www.allahopp.de](http://www.allahopp.de).
