

Kinderland
Emsland Playground

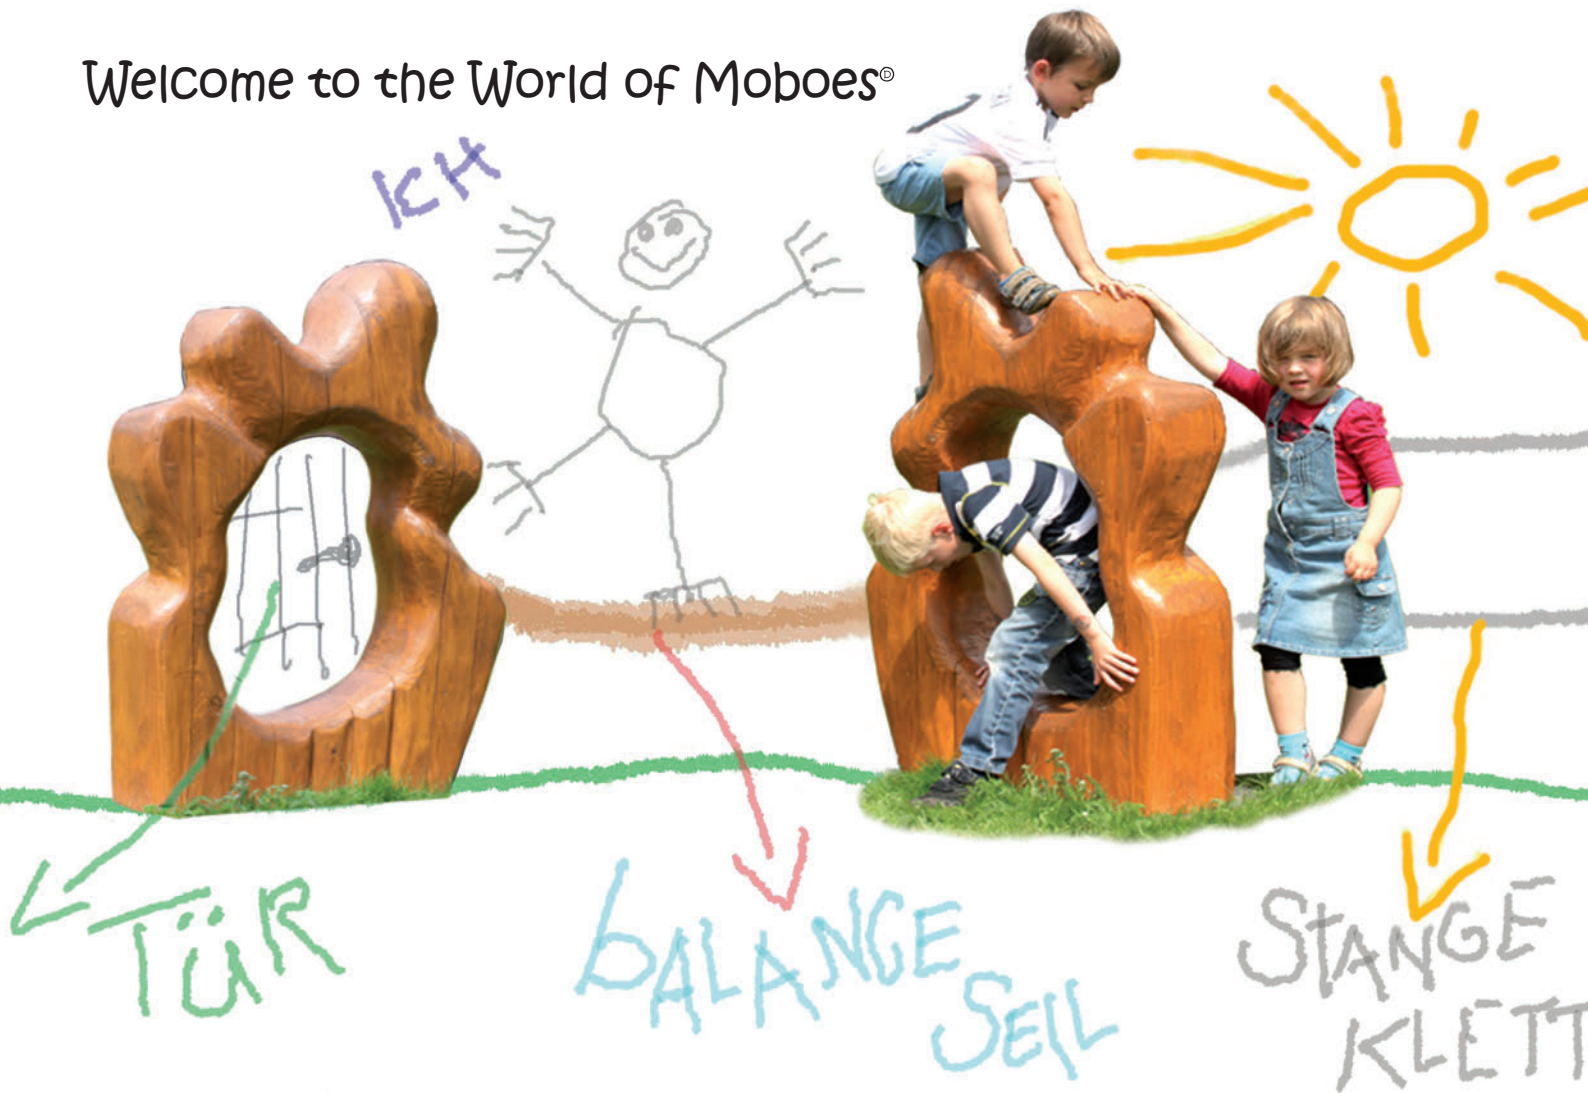

Endless
possibilities

Moboes®

Welcome to the World of Moboes®

Over, under and through!

With Moboes® everything revolves around mobility, organic and esthetic shapes for climbing and fantasy play for children from 2 to 10 years of age.

Moboes® is a modular system of which all elements can be connected and **combined**. For each budget and every situation.

Moboes® prime / 2-4 years

Moboes® avanti / 4-7 years

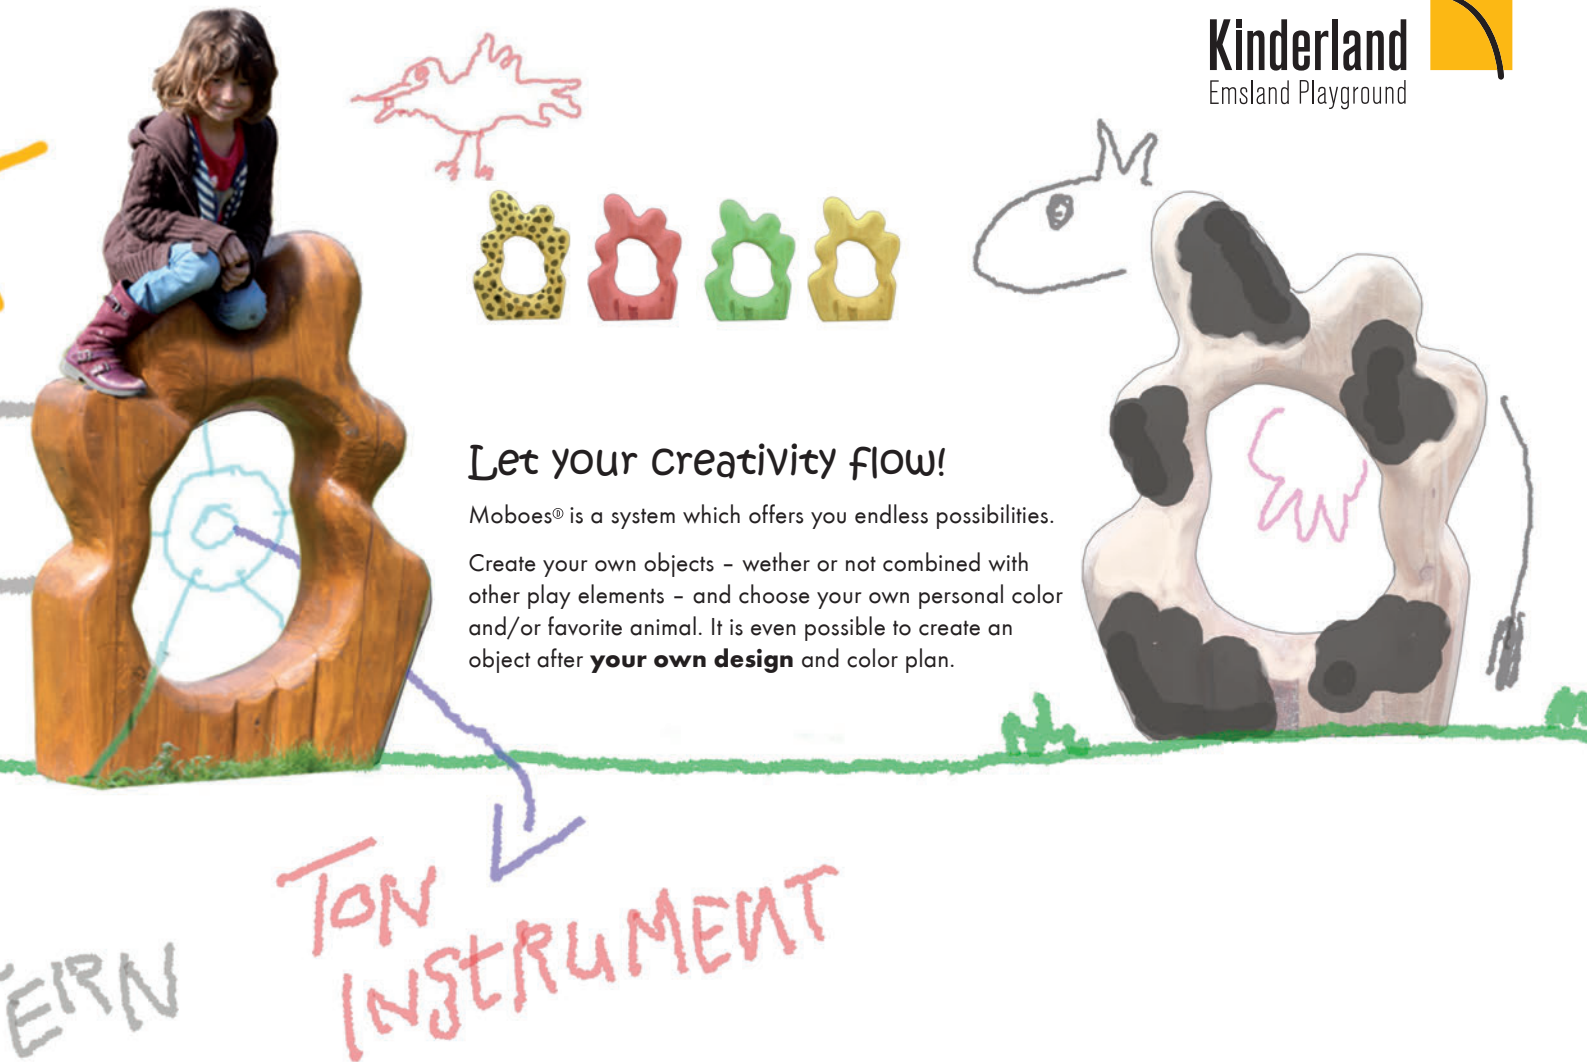

Moboes® supreme / 6-10 years

Kinderland
Emsland Playground

Let your Creativity flow!

Moboes® is a system which offers you endless possibilities.

Create your own objects – whether or not combined with other play elements – and choose your own personal color and/or favorite animal. It is even possible to create an object after **your own design** and color plan.

Questions?

This flyer is far too small to tell it all.
Please call us for more information or visit us at
www.moboes.de.

To give an idea of our other play elements
for bigger and smaller children we kindly refer
to our website:

www.emsland-spielgeraete.de

We are sure that our projects will bring you joy.
Please feel free to contact us !!!
